Finding Artwork:

It is possible to search for an individual artworks using its ID number.

This means that artists and visitors can instantly teleport to the location.

Simply press 'F' to find an artwork by entering its 3-digit number.

Artists who have shared their country of origin or current location should find their work in their country. Artworks are also placed randomly around the world. This means that each piece may appear more than once, and it could appear in any location.

Videos are shown on the mini-map as blue flashing dots.
